# LONGWOOD COLLEGE—1966

In years to come when we look back on our college days can we rely on our own memories to keep the experiences which we have shared as vivid as they are to us now? Or will it take some written word or visual clue to remind us? The Rotunda, a weekly voice of the students views and activities; the Gyre, a seasonal display of student literary effort; the Virginian, an annual picture of a year gone by, will bring back these days as though they were a part of us once again. Because of the service that these publications have given us during our College days and because of their continuing service in years to come we the staff of the 1966 Virginian dedicate this book to The Longwood College publications and to those who so ably and willingly serve them.

My major areas of emphasis would be predominantly in two fields: a more enriched academic environment, and more student awareness of college life. I feel that a better relationship between the student body and administration is needed. Areas in which I feel there should be more fully developed are in the field of the variety of the extracurricular activities. Specifically, these areas should be developed: the Student Government, the Student Service, and the Longwood must stand on their own feet. In my opinion, another initial step toward a more progressive approach at Longwood is through a Course Evaluation program. This would afford the opportunity to evaluate the educational program and to set up a system that would be of the greatest value to both students and faculty. This would require a long period of time and over a long period of time, a level could be established until a more advanced level is reached.

#### Sandy Byrum

The Student Government should be made more representative of the student body and the reasons for these changes should be recognized and accepted.

#### Sandy Byrum

The emphasis of my program is on Student Awareness. I have broken this into three areas: a) Longwood should have a more active role in the academic sphere. b) Longwood should have a more active role in the social sphere. c) Longwood should have a more active role in the cultural sphere.

The Judicial Board of Longwood College is not a body of students. It is a body of students who have been elected to represent the student body. From 'Top Rats' to Colleagues

## THE COLLEAGUES

The Colleagues comprise a group of Sophomores whose sole purpose is to make the Freshmen's initial contact with college life as warm and pleasant an experience as possible. They sponsor five events for the Freshmen: a sing, a movie, the capping ceremony, a concert, and a banquet. But, best of all, they try to convey to the Freshmen that special spirit of friendliness that is one of the most cherished traditions at Longwood College.
